Scripting & Development: PowerShell, Automation Scripting, AI Programming, Web Development, Mobile Development, Visual Studio Code (VS Code)

Infrastructure & Support: Network Administration, Printer Configuration, Windows Administration, Hardware & Software Troubleshooting

PROFESSIONAL EXPERIENCE

School Guard & IT Support

Sep 2023 – Present

Alnebras International School — Doha, Qatar

- Administer Microsoft 365 environment including user accounts, licensing, mailboxes, and security groups for staff and students.
- Manage Microsoft Entra ID (Azure AD) for identity, access, and device compliance across the school network.
- Support Azure Cloud resources and maintain Exchange Online and Microsoft Teams for daily school communications.
- Provide day-to-day technical support to teachers and administrative staff, resolving hardware, software, and connectivity issues.
- Configure, maintain, and troubleshoot network and office printers to minimize classroom and office downtime.
- Diagnose and resolve hardware, software, and network issues across school computer labs, offices, and classrooms.
- Develop automation scripts to streamline repetitive IT administration tasks and improve response time.
- Apply AI-assisted programming techniques to build internal tools and improve workflow efficiency.
- Build and maintain web and mobile applications to support school operations using Visual Studio Code.
- Assist the HR department with onboarding documentation, records administration, and general administrative support.
- Supervise school bus operations to ensure student safety during arrival and dismissal.
- Administer NWEA MAP Growth testing sessions, including technical setup and troubleshooting during assessments.

- Monitor and track technology assets (laptops, tablets, projectors, network equipment) to maintain accurate inventory and reduce loss.

Supermarket Bagger

Retail Supermarket — Philippines

- Provided fast, courteous customer service by packing groceries accurately and efficiently at checkout.
- Assisted customers with carrying items and maintained a clean, organized bagging and checkout area.
- Worked collaboratively with cashiers and floor staff to keep checkout lines moving during peak hours.

Batter Production Worker

Batter Manufacturing Company — Philippines

- Operated and monitored batter production line equipment to meet daily output and quality targets.
- Followed food safety, sanitation, and quality-control procedures throughout the production process.
- Performed quality checks and reported equipment issues promptly to reduce downtime.

KEY ACHIEVEMENTS

- Transitioned from a facilities/security role into a dual IT Support function by self-teaching Microsoft 365, Entra ID, and Azure administration on the job.
- Reduced recurring IT support requests by developing automation scripts for routine administrative tasks.
- Maintained reliable printer and device uptime across the school through proactive maintenance and troubleshooting.
- Successfully administered NWEA MAP Growth testing with zero major technical disruptions.
- Built internal web and mobile tools to support school administrative workflows using AI-assisted development practices.
